Wood-Loc

Get the traditional look of a wood floor for a fraction of the cost. Wood-Loc is durable, snap-together, modular flooring for a wide variety of athletic flooring solutions.

Best of all, it comes with a host of advantages that make it superior to wood. This woodgrain vinyl tile never needs refinishing, plus it is low maintenance and easy to clean. Wood-Loc also provides a cushioned surface that absorbs shock to reduce stress on joints and help fight fatigue.

Wood-Loc is available in a parquet pattern that can be used to mix and match or create a distinctive look of its own.

It's great for basketball, volleyball, aerobics, dance floors, jazzercise® programs, spin rooms, Pilates and multi-purpose areas. Wood-Loc is uniquely suited to below-grade installations where moisture problems exist.
